

HOW IT WORKS?

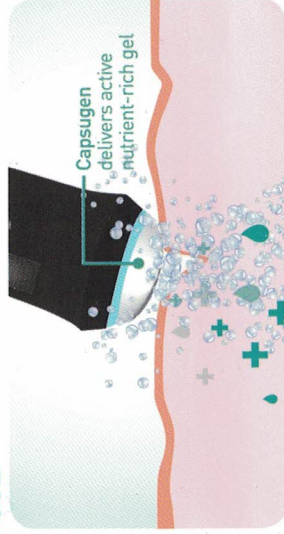

OxyGeneo Technology is an innovative skin renewing treatment that delivers 3 essential treatments simultaneously:

- **Exfoliation** of the outer layer of the skin
- **Infusion** of essential revitalizing nutrients
- **Oxygenation** of the skin generated from within

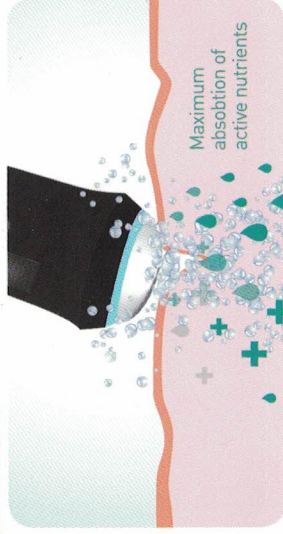

EXFOLIATE

INFUSE

OXYGENATE

This exclusive combination improves skin tone, evens texture and nourishes the complexion - giving you a balanced healthy glow. For long term results try a treatment series.

SKIN CARE TREATMENTS

OxyGeneo Technology was designed to work with specially developed nutrient-rich formulas for optimal results.

NeoRevive®

NeoRevive is an exclusive formula that delivers superior skin rejuvenation and anti-aging.

NeoBright®

NeoBright provides optimal skin lightening, nourishment and rejuvenation.

"OxyGeneo delivers excellent facial skin exfoliation but also provides the unique benefits of natural skin oxygenation and nutrient infusion"

Dr. Ghislaine Bellin - Paris, France

FREQUENTLY ASKED QUESTIONS

How soon after treatment can I return to my daily activity?

OxyGeneo treatments do not require any downtime so you may resume your daily routine immediately. We do however recommend using a hypoallergenic sunscreen for at least 24 hours following your session.

Is the OxyGeneo suitable for all skin tones?

Yes, OxyGeneo is designed to be used on all skin tones.

How long do OxyGeneo treatments take?

The treatment takes approximately 40 minutes including pre and post treatment preparation.

RADIANT SKIN IS A TREATMENT AWAY
